Profile

Full-stack developer with hands-on experience in Next.js, React.js, Node.js, and PostgreSQL. Passionate about creating scalable, user-friendly web applications that solve real problems and make an impact. With a foundation in DSA and core computer science concepts, I enjoy working in collaborative teams, adapting quickly to new challenges, and continuously improving my skills.

Education

Bachelor of Technology in Computer Science and Systems Engineering
Kalinga Institute of Industrial Technology (KIIT), Bhubaneswar   Expected May 2026

Skills

C, C++, JavaScript, React.js, Next.js, Node.js, Express, MongoDB, PostgreSQL, Prisma ORM, Tailwind, Git, GitHub, Postman

Experience

Full Stack Developer Intern – Voyasim Travel Services LLP (VisaFu)   May 2025 – July 2025

Developed VisaFu's visa assistance platform using React.js, Node.js, and Express.js (MERN stack), improving application processing efficiency by 15%.

Built REST APIs and responsive UIs, reducing page load times by 20% and enhancing user engagement.

Collaborated with design, DevOps, and product teams in Agile sprints, achieving 95% on-time feature delivery while maintaining modular, reusable code.

Freelance Full Stack Developer – Signature Factor E-Commerce Website: sfgifts.in   August 2025

Built a full-stack e-commerce site in Next.js (App Router), boosting load speed by 25%.

Integrated Clerk authentication with role-based admin access, ensuring 100% secure admin-only features.

Used PostgreSQL (Neon) + Prisma ORM, cutting query errors by 30%.

Collaborated with 2 developers to ship modular UI and product/category features, reducing dev time by 20%.

Projects

- **Moment – Journal Web Application Website: moment**
  - Built with **Next.js 14**, JavaScript, and Tailwind CSS, featuring a WYSIWYG rich text editor.
  - Implemented mood tracking and dynamic charts for emotional visualization.
  - Designed modular, responsive UI; deployed on Vercel.
  - **Website: moment**

- **MentR2b AI Career Coach: Website: MentR2B**
  - Built with **Next.js**, **JavaScript**, and **Tailwind CSS**, integrating speech-to-text and feedback analysis to improve user engagement by 30%.
  - Developed an AI-powered platform used by 500+ users to generate personalized quizzes and mock interviews with real-time feedback, boosting preparation efficiency by 40%.
  - Implemented AI-based resume optimization and tailored cover letter generation, reducing manual effort by 50% while improving job application relevance.
